Charging into the Future: Modern ERP for Manufacturers

SOCO welcomes the Association of Manufacturing Excellence as one of its guest speakers for the upcoming event "Charging into the Future: Modern ERP for Manufacturers," which will be held on 8 March.

Business leaders and entrepreneurs who seek to learn about the ever-evolving operational landscape of the Australian manufacturing sector are urged to attend the event, which seeks to offer access to a wide range of digital solutions designed to help them overcome growth barriers.

AME President Tim Odokeychuk will speak at the event to tackle business operational challenges and technology trends impacting the manufacturing industry.
